A 3D perspective drawing of a rectangular prism. The front face is a rectangle. A vertical red dimension line with arrows at both ends is positioned to the right of the front face, spanning its full height. To the right of this line is the red text '1.787'. A horizontal red dimension line with arrows at both ends is positioned above the front face, spanning its full width. To the right of this line is the red text '417'. The top and bottom edges of the prism are shown as receding lines into the distance.
