This diagram illustrates the fifth step of the assembly process. It shows a vertical cabinet door (labeled 1) being attached to a long, low base unit (labeled 4). The door has a handle and a lock mechanism. The base unit has a long, narrow profile with a recessed area. A circular inset provides a detailed view of the attachment point, showing a screw being driven into a pre-drilled hole in the base unit, securing the door's hinge or latch mechanism. The door is shown in an open position, revealing its internal structure and the hinge mechanism. The base unit is shown in a perspective view, highlighting its length and the attachment points along its top edge.
