

oli:1

The diagram illustrates two components. Component A is a large, light gray rectangular base with a slightly raised front edge. Component D is a smaller, light gray rectangular frame with a central divider and two side dividers, all highlighted in orange. The frame has small feet at the corners.

2

A 3D perspective diagram of a rectangular beam labeled **B**. The beam is supported by three vertical supports: one at the left end, one in the middle, and one at the right end. The beam is oriented horizontally, and the supports are positioned along its bottom edge.
