(D) Sehr geehrter Kunde, als Möbelproduzent möchten wir Sie darüber informieren, dass eine Befestigung nur so gut ist wie die Verbindung zwischen Befestigungsmaterial (Dübel) und Mauerwerk. Prüfen Sie bei Hängeelementen Ihr Mauerwerk und verwenden Sie nur dafür vorgesehene Dübel aus einem Fachmarkt. Letztendlich ist der Monteur für die Befestigung am Mauerwerk verantwortlich. Die Montage und das Verlegen der Elektroartikel sind nur von autorisiertem Fachpersonal durchzuführen. Beachten Sie die Beschreibungen und die Gewichtsangaben in der Montageanleitung. Halten Sie bitte die angegebenen max. Gewichtsangaben ein. Bei Überlastungen, die durch spielende Kinder, Menschen, Material oder sonstige Einwirkungen entstehen -übernehmen wir als Möbelproduzent keine Haftung! Die einwandfreie Funktion des Möbels ist nur bei lot- und waagerechter Aufstellung gewährleistet. Die Türen sind vorjustiert, müssen aber ggf. aufgrund örtlicher Bedingungen neu ausgerichtet / eingestellt werden! Alle elektrischen Installationen sind nach den gültigen Normen bzw. Vorschriften von VDE, CE, MM gefertigt. Die zu verwendende Leuchtmittelstärke ist auf der jeweiligen Lampenfassung angegeben. Bei Nichteinhaltung der max. Alle Schrauben sowie tragende Verbindungsstelle sollten nach 5 bis 6 Wochen nachgezogen werden, um eine dauerhafte Standsicherheit zu gewähren! Keine scheuernden Putzmittel verwenden! Werden Betriebs-, Bedienungs- oder Montageanweisungen nicht befolgt, Änderungen an den Produkten vorgenommen, Teile ausgewechselt oder Verbrauchsmaterialien verwendet, die nicht den Originalteilen entsprechen, so entfällt jegliche Gewährleistung oder Haftungsansprüche. Kein scharfes Reinigungsmittel mit Zusatzstoffen verwenden. - Oberflächen mit einem nassen Lappen abreiben keinen Dampfreiniger verwenden. - Oberfläche nicht mit scharfen Gegenständen beschädigen - Oberflächen auf gar keinen Fall starker Sonnenbestrahlung aussetzen Wir wünschen Ihnen noch viel Freude mit Ihrem neuen Möbel. Ihre Produktentwicklung	(GB) Dear Customer, As a furniture manufacturer we would like to point out that an attachment is only as good as the connection between the attachment material (dowel) and masonry. In the case of suspension elements you should check your masonry and only use the appropriate dowels from a specialist store. Ultimately it is the person carrying out the installation who is responsible for attachment to the masonry. The installation and laying of electrical lines and other items must only be performed by authorised specialists. Please note the descriptions and weight information in the installation instructions. Please observe the stated maximum weights; in the case of mechanical overloads caused by playing children, other individuals, materials etc. we do not accept any liability as the manufacturer of the furniture! The furniture is only guaranteed to work perfectly if it is set up to be plumb and horizontal. The doors have been pre-adjusted, but may need to be realigned/readjusted in accordance with local conditions! All electrical installations have been produced in accordance with the latest norms and regulations, such as those of the VDE (Association of German Electrical Engineers), CE and MM. The power of the bulbs to be used is marked on the respective light fitting. If the maximum number of watts stated on the fitting is not complied with, there is a danger of fire from overheating. Covering the lamps and bulbs is strictly prohibited due to the danger of fire! All screws and load-bearing connecting parts should be tightened after 5 to 6 weeks in order to ensure long-term stability! Do not use any abrasive cleaning materials! If the operating or installation instructions are not complied with, modifications are carried out to the products, parts replaced or consumable materials used which do not correspond to the original parts, all warranty or liability claims shall become null and void. Attention! Notice! Our high gloss surfaces have a protective foil when delivered. Please leave this foil on the furniture until it is completely assembled and all dust has been removed. To maintain the valuable high gloss appearance, you should - expose the high gloss foil to the room air for an hour to allow it to harden after removing the protective foil. - only use a damp cotton cloth and a small amount of glass cleaner to clean the surfaces. - Do not use any aggressive cleaners with additives. - Rub off the surfaces with a wet rag. - Do not use a steam cleaner. - Do not damage the surface with sharp objects. - Do not in any case expose the surfaces to intense sunlight We wish you plenty of enjoyment with your new furniture. Mint bútorgyártó arról szeretnénk tájékoztatni Önt, hogy a rögzített szerkezetek minősége a rögzítőanyag (tipl) és a fal közti összeköttetés minőségétől függ. Falra szerelt egységek esetén ellenőrizze a fal adottságait és csak is szakkereskedelemből származó, a rögzítéshez megfelelő tipiket használjon. Végősoron a bútort felszerelő személy felelős a falra történő rögzítésért. A villamossági cikkek szerelését és elhelyezését csakis erre jogosult szakember végezheti. Kérjük, vegye figyelembe az összeszerelési útmutatóban szereplő leírásokat és súlyadatokat. Tartsa be a megadott maximális súlyhatárokat. A bútor játszó gyermekek, személyek, anyagok vagy egyéb behatások okozta túlterhelésért a bútorgyártót nem terheli felelősség. A bútor kifogástalan működése csakis pontosan függőleges helyzetben garantált. Az ajtók előre be vannak állítva, a helyi adottságok függvényében azonban szükség esetén újra be kell állítani/igazítani őket. A villamos berendezések a német VDE, CE és MM érvényes szabványainak és előírásainak megfelelően készültek. A világítótestek megfelelő erőssége az adott lámpa foglalatán található meg. A max. watt-szám be nem tartása esetén túlforrósodás következtében fellépő tűzveszély áll fenn. A világítótesteket tűzveszély miatt nem szabad letakarni! Minden csavart és tartó összekötő részt 5-6 hét elteltével újra meg kell húzni a bútor álló helyzetben való tartós biztonsága érdekében. Nem használjon habzó tisztítószereket! Az üzemeltetési, kezelési ill. szerelési útmutató utasításainak be nem tartása, a termék nem megfelelő tisztítás, részek kicserélése, vagy az eredeti részeknek meg nem felelő anyagokat felhasználása esetén mindennemű szavatosság és felelősség kizárt. Figyelem, olvassa el a tanácsot! A fényes felületeket a kiszállítás során véd a fóliát a bútoron addig, amíg azt teljesen össze nem szerelte és nem távolította el róla a port. Az értékes fényes felület megóvásához tegye a következőket: Hagyja a fényes fóliát a védőfólia eltávolítása után egy órát keményedni a helyiség levegőjében. A felületek tisztításához kizárólag nedves pamutkendőt és egy kevés ablaktisztítót használjon. Ne használjon éles szemcsés tisztítószereket. A felületet törölje át egy nedves ronggyal. Ne használjon gőzölős tisztítóeszközt. A felületet óvja a kemény tárgyakkal való sérülésről. A felület mindig óvni kell az erős napsütéstől. Reméljük, sok örömet lel az új bútor használatában.
