Remote Control N°: 500.67

The diagram illustrates a Zigbee 3.0 network topology. On the left, a series of smart home devices are shown: a remote control, a light switch, a motion sensor, a lamp, a light bulb, and a power outlet. These devices are connected to a central Zigbee 3.0 Gateway via a Router. The Gateway is represented by a box labeled 'Zigbee 3.0 Gateway' connected to a 'Router' box. On the right, a smartphone labeled 'App' and a microphone icon are shown, indicating the user interface for the network.

 **-FR** Les piles et accumulateurs usagés, ainsi que les lampes qui peuvent être retirées de l'appareil usagé sans être détruites, doivent être séparés de l'appareil usagé avant d'être remis à un point de collecte. Les distributeurs sont tenus de reprendre gratuitement ce produit dans le cadre de l'article 17, paragraphes 1 et 2 de l'ElektroG. Les utilisateurs finaux d'équipements usagés doivent veiller, sous leur propre responsabilité, à la suppression des données à caractère personnel sur les équipements usagés à mettre au rebut.
